Teacher's Name: _____

Due Date: _____

Partner's Name: _____

The Science Alliance of Tennessee, a coalition of 6 Science and Children's Museums, aims to foster children's curiosity, wonder and problem-solving skills using STEM curricula and community connections that set students on a positive trajectory of learning where they live and play. This project, the Tennessee Rural Impact Project (TRIP), was made possible in part by the Institute of Museum and Library Services.

Let's Explore

Animal Habitats: Rainforest

Exploring...

A rainforest is an area with a lot of tree's close together. It's also a place that has heavy rain fall every single day.

Rainforest are close to the equator so that means they are very hot.

Many animals call the rainforest their home. Some animals are: Sloths, Monkeys, Tapirs, Parrots, Frogs, even a Pink Dolphin!

What to do

Tree Exploration

The rainforest has many tall trees. Their leaves are thick.

With a partner, go outside and look at trees that are in your yard. Draw a picture below of a large tree you see! Label where the leaves are and the tree's trunk! What colors do you see?
Can you guess how tall the tree is?
