

Expanding...

Look around your world.

Do you see any digital clocks?

Try reading the time with your partner.

Student Name: _____

Teacher's Name: _____

Due Date: _____

Partner's Name: _____

The Science Alliance of Tennessee, a coalition of 6 Science and Children's Museums, aims to foster children's curiosity, wonder and problem-solving skills using STEM curricula and community connections that set students on a positive trajectory of learning where they live and play. This project, the Tennessee Rural Impact Project (TRIP), was made possible in part by the Institute of Museum and Library Services.

Let's Explore

What Time Is It? - Digital

Exploring...

Clocks are how we tell time.
There are two types of clocks
- digital and analog.

Digital clocks have the time
written out in numbers, like
1:30.

hour minutes

The hour is written first.
The minutes are next.

What to do

Have your partner tell you a time.
Cut out the numbers on the next
page.

Show the time on the digital
clock with the numbers.
