The Science Alliance of Tennessee, a coalition of 6 Science and Children's Museums, aims to foster children's curiosity, wonder and problem-solving skills using STEM curricula and community connections that set students on a positive trajectory of learning where they live and play. This project, the Tennessee Rural Impact Project (TRIP), was made possible in part by the Institute of Museum and Library Services.

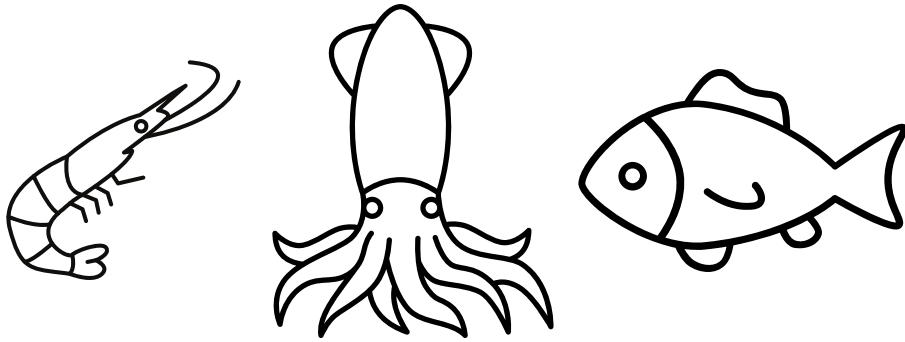

Let's Explore

What's on a
Penguin's Plate?

Exploring...

Penguins are predators.
They eat other animals.
They eat krill, squid, and fish.

Penguins swim to hunt for
food.
They can swim up to 15 miles
per hour.
They can hold their breath
under water for up to 20
minutes.

What to do

Draw a line from the penguin to
what it eats.
